

Intelligent roll remote support service from Valmet

Tatu Pitkänen, *Global Technology Manager, Roll Covers and Maintenance, Valmet, Finland.*

In these exceptional times, remote services provide papermakers with quick and safe access to Valmet’s expertise. Intelligent roll remote support and data analysis services provide a tool for supporting onsite actions and maintenance, as well as optimizing the papermaking process. Avoiding unplanned shutdowns and improving profiles mean less broke, better runnability, higher quality and cost savings.....
